2-3/4" Black Plastic Grommets

2-3/4" Black Plastic Grommets

The 2-3/4" Black Econo Series Grommet

This two-piece grommet consists of a liner and cap. The liner piece lines cable management holes in desks or any flat surface. The cap piece, including a flip cap, covers the liner piece and can be lifted up and pushed down into the grommet for neat storage and cable management.

Our grommets, available in black, are designed for easy installation and fit into a standard drill hole size of 2 - 3/4".
