# Timberline Locks

# Timberline Locks

The CompX Timberline series cam locks are best used in door applications where the cam plate locks at either the 3 o'clock or 9 o'clock position. These locks mount easily and securely in  $\frac{3}{4}$ " material with two screws. The other benefits and features include:

- Available in 90 or 180 degree versions
- Cams change easily
- CB-170 version for use in material from  $\frac{7}{8}$ " to  $1\text{-}\frac{3}{8}$ "
